

Staff Impression - 12268

Ansel is a handsome donor with light brown hair and large light blue eyes. His face is rectangular with high cheekbones, an angular jaw line, a refined nose, and full lips. He is an impressive track and field athlete which has given him a lean, athletic physique.

Ansel is politically active, confident, outgoing, and socially aware with lots of charm and leadership skills. Community building and social responsibility are the focus of much of his time and activities. We expect to see big things from Ansel and we are excited to have him in our program.
