

Cleo 14176 Staff Impression

Cleo is tall with a medium build, brown eyes, and is Armenian and Greek, which makes for his clear, tan complexion. We were significantly impressed by his intelligence, as he works full-time as a network engineer. He has a fascination with science and technology; however, he also enjoys active sports including basketball and soccer.

Cleo is incredibly kind, caring, compassionate, and an overall family man. He enjoys spending time with his extended family and more than anything, his children. Cleo has a highly ambitious and motivated attitude towards life, as he plans on eventually advancing his engineering career. He is easy to make conversation with and his passion for helping other families truly humbled us. We are very thankful to have him in our program!
