

Wyndham 12272 Staff Impression

Wyndham is intelligent and has an adventurous personality, he is energetic and a lively conversationalist. He has soft, brown eyes, and a rounded nose that fits perfectly with his full cheeks and youthful features. His kind face fits his personality well!

Wyndham is a recent college graduate with a degree in Computer Science and a bright future in the tech industry. In his free time, he enjoys playing guitar (self-taught!) and enjoys listening to alternative and indie rock music including Bon Iver. He also enjoys reading nonfiction books and eating Indian food. We were captivated hearing about his travels to Europe and how much he has already explored around the world. Wyndham is a well-rounded guy and we are grateful to have him in our program!
