

Bandol Staff Impression

Bandol is an athletic, hardworking, ambitious, and intelligent young man and we are thrilled to have him in our donor program. Standing at just over 6ft tall, he has a lean athletic build. He maintains his physique with regular surfing. Bandol has a beautiful tan complexion, full pouty lips, and a genuine smile. He has intense almond shape brown eyes and matching sun kissed, thick and straight dark brown hair.

Bandol may have a laid-back surfer vibe about him, but he is anything but laid back. He is very driven and has many avenues he is pursuing. He is currently a student studying Oceanic and Atmospheric Sciences. He intends to see his education all the way through obtaining a PhD. Bandol is also an avid windsurfer and sailor, having won multiple awards. Bandol shares a close relationship with not only his family but also his friends, these relationships have shaped him into the young man he is today and has given him the courage and strength to pursue all his dreams.
