

Marcellus Staff Impression

Marcellus is striking with bright hazel eyes, medium olive skin, and a head full of thick curls. He has a great smile with a single dimple and naturally straight, pearly white, teeth— a trait that runs throughout his family. He is always tidy, well-groomed, and sharply dressed. He stays active playing basketball in his leisure time.

Marcellus is optimistic, outgoing, and gracious. He is one of the most well-organized, punctual, and reliable donors that we have had in our program. As one of many siblings in a tight-knit family, Marcellus understands the importance of a supportive and loving family. We think he is a great guy who consistently demonstrates his willingness and enthusiasm for helping others.
