

Devereux 12821 Staff Impression

Devereux is a very handsome donor with a fit frame, owed in part to playing soccer as well as being naturally athletic. He has a beautiful olive complexion thanks to his African American and Creole roots. Framed by stylish glasses, Devereux's deep brown eyes truly sparkle. He is tidy and stylish with shaved, short, black, curly hair and closely-cropped facial hair. He has an oval jawline, high cheekbones, and cute dimples. Devereux has full lips, straight white teeth, and a genuine, charming, smile.

Devereux recently completed his master's degree in Cyber Security and Emergency Management, and he is currently looking into a career in international trade. His interest in this field developed after spending the last 5 years traveling the world on his own, particularly through Asia. Speaking multiple languages helped Devereux integrate into other cultures with ease. Devereux is very close with his large family and credits them, especially his grandmother, for teaching him the value of hard work, perseverance, and taking nothing for granted. We are very lucky to have Devereux in our donor program and look forward to seeing what he accomplishes in the future.
