

Peace 10564

Peace is a handsome, educated, driven, and empathetic guy, truly the whole package in what someone would like for in a donor. He is tall, with kind blue, green eyes and a friendly smile. Our conversations with Peace are quite enjoyable, as we appreciate his drive to help others and pursue education in medicine. He graduated with a degree in biology, and was recently accepted into medical school! The path he has paved ahead of him is quite admirable, but he always maintains a humble attitude about it. Peace has a determined and empathetic personality, and its clear how much he values helping others.

In his downtime, he enjoys painting and playing basketball. We recommend to Peace to any family who is looking for a donor who is strong willed, caring, and a true leader!
