

BFA0166 is like a little whirlwind when he visits us – he is always on the go. He is smart and funny and kind with a dry sense of humour. He has a cheeky smile with beautiful green eyes and dark brown hair and a slender build. He is always punctual and manages to keep to his appointments despite his busy lifestyle. He is a doting dad who has a beautiful relationship with his family.

He is a keen musician, playing the keyboard (and piano since the age of 13), as well as a DJ/producer. He is also a keen cyclist. This is very different to his engineering career. He is passionate and driven towards his work: we would describe him as a self-made man, who is proud of everything he has achieved in his life.
