

### **Garston 12769 Staff Impression**

Garston is charming, inquisitive, and profound with his words. He has beautiful hazel eyes and a broad smile. We enjoy having conversations with him, as he has a calming personality, yet is still very personable and social. Garston works as a mechanic in the U.S. Navy and has always been proficient in math. He is bilingual, as he is fluent in German and one day hopes to travel to Germany to be able to interact with others who speak the language. In his free time, Garston enjoys playing the ukulele, singing, and writing, which did not come as a surprise to us; Garston is a hardworking person, with a creative soul and we are very thankful to have him in our program!
