

Standing at 5ft 8in with a lean build, curly black hair and warm, dark eyes, BFA0191 has a calm confidence that matches his practical and athletic nature. With a Master's in Business Administration, he carries an assertive mindset balanced by genuine compassion and a strong desire to help others—qualities that inspired his shift into a career centred around supporting people.

Family is at the heart of everything he does. Many of his happiest memories and proudest moments are rooted in time spent with loved ones, and the person who inspires him most is his cousin, whose influence continues to motivate him to reach higher. This deep sense of connection shines through in the way he speaks about his family—openly, fondly, and often.

A sports minded individual who also speaks three languages together with his ability to connect with people from all walks of life, adds to his appeal

At first, he comes across as a little shy, however he warms up quickly. Once he does, his true personality comes through—funny, engaging, and incredibly down-to-earth. His caring and kind nature is felt by everyone who meets him. We love that he always arrives and has his usual coffee, ready for a friendly chat. Determined, driven, and deeply compassionate, he brings sincerity and warmth every time he visits us.
